**Degree:** Bachelor of Science in Bioengineering

**Coursework:** Biochemistry, Machine Learning, Nanotechnology Lab, Senior Capstone Design

## UC Berkeley Full-Stack Coding Boot Camp

*April 2023 - Present*

Will have:

- Learned how to use HyperText Markup Language, Cascading Style Sheets, and JavaScript
- Worked on 18 individual projects and 3 group projects that use the aforementioned topics
- Created responsive webpages that can be viewed clearly at various screen sizes
- Handled user input dynamically with JavaScript functions
- Improved problem solving skills by debugging code

## SKILLS

Customer service, conflict resolution, relationship building

Explaining information, verbal communication, phone etiquette

Independent work, teamwork, attention to detail, organizational skills

## EXPERIENCE

*Assistant Manager for Santa Photos (Temporary)*

*November-December 2022*

- Used prior experience as a sales associate to train new team members and answer their questions
- Wrote down upcoming appointments and confirmed phone numbers with customers
- Monitored inventory of printer supplies by recording number of boxes daily

*Sales Associate for Santa Photos (Temporary)*

*December 2021*

- Explained photo package options to guests to help them choose the right one
- Had conversations with families while they were waiting to make them feel welcome
- Coordinated with the mall Santa to take photos of guests striking quickly changing poses

*Sales Associate for Spirit Halloween (Temporary)*

*September-November 2021*

- Guided customers to items in the store and offered suggestions about their Halloween costumes
- Restocked and organized shelves to improve their appearance and make items easier to find
- Learned how to use cash registers and rang up at least 15 people per day

*Security Monitor for Residential & Student Service Programs*

*August 2017 - May 2018*

- Monitored the flow of at least 100 students into and out of residence halls for 5 hours per night
- Developed close relationships with some residents and had conversations with them regularly
- Guided a new hire through her first shift by patrolling the courtyard together

## EXTRACURRICULARS

*Concrete Canoe Club Member*

*September 2019 - August 2020*

- Designed a canoe in a 3D modeling software called SolidWorks by merging cross sections
- Planned out project timeline carefully to keep design and creation of canoe moving efficiently
- Worked in a construction lab setting using tools such as concrete mixers and shape molds
